Caution: Hot steam and boiling water! Do not allow the appliance to be used by children. Steam and boiling water can lead to burns.

DO NOT DISCARD! Save for future reference. Please read the manual or check our website www.airoswiss.net for further information.
RECOMMENDED TO CLEAN WITH EZCal AND EZCal PRO

Switch off the appliance and unplug it from the socket before cleaning the unit. Clean the water tank and the base regularly. Use water only, no detergents.

For best results, use EZCal and EZCal Pro cleaning agents to remove deposits from the humidifier base.

Do not submerge the base in water! Thoroughly rinse the base with tap water and make sure no EZCal or EZCal Pro residue remains in the base!

There is a sample of EZCal included in the packaging of your humidifier!

Only use 1 packet for 32oz of water. Do not change the ratio. Thoroughly rinse the base with tap water and make sure no EZCal residue remains in the base. Instructions for use are on the packet. Please note: EZCal and EZCal Pro are the only recommended cleaning and descaling solution. Do NOT use any other cleaning solutions since it can damage the product. Any use of cleaning solutions apart from EZCal and EZCal Pro will void the warranty.

EZCal and EZCal Pro descaling agents are available at selected retail stores and online at www.airoswiss.net.

What is EZCal and EZCal Pro?
EZCal and EZCal Pro are cleaning and descaling agents recommended for all humidifiers. The decalcification ingredients cleans the mineral build-up in the humidifier base.
